CAREER PROFILE

Detail-oriented ICT professional with hands-on experience in **web technologies, technical support, and digital content delivery.** . Skilled in **HTML, CSS, JavaScript, and system troubleshooting**, with a proven ability to improve system performance, enhance user experience, and deliver high-quality digital solutions. Demonstrated success in **data accuracy, application support, and user training**, with strong attention to detail and compliance. Seeking to leverage technical expertise and problem-solving skills to contribute to organizational efficiency and innovation. Passionate about leveraging technology to optimize digital platforms and support organizational goals.

SKILLS

- Web Development (HTML, CSS, JavaScript)
- Technical Documentation & Reporting
- IT Support & Systems Maintenance
- Data Protection & Cybersecurity Awareness
- Content Management & Digital Platforms
- Network Configuration & Troubleshooting
- Accessibility and Awareness
- Effective Communication
- Patience and Emotional Intelligence
- Adaptive Communication
- Project Management and Organization
- Analytical and critical thinking

PERSONAL INFORMATION

Languages: Proficient in English and Swahili.

Computer Literacy: Web Technologies: HTML and CSS; Operating Systems: Windows (XP–11), Linux; Tools: MS Office Suite, QuickBooks; Networking: LAN setup, printer configuration, RJ45 termination.

PROFESSIONAL EXPERIENCE

Coding and Robotics Tutor **Aug 2024 – Present**

Stimulating Smartbrains | *Nairobi, Kenya*

- Designed and delivered lessons in HTML, CSS, Scratch, and coding fundamentals, enabling students to build functional web-based projects.
- Guided learners in debugging and troubleshooting code, reducing errors and improving project completion rates by enhancing logical problem-solving skills.
- Integrated robotics concepts (sensors, actuators, microcontrollers), helping students translate software into real-world applications.
- Evaluated and documented student progress, ensuring structured feedback and continuous performance improvement.

- Researched emerging coding trends and incorporated them into teaching, keeping learning content relevant and up-to-date.

Akoth Alice Ojuang

Associate Data Annotator

Sama AI | *Nairobi, Kenya*

- Annotated large datasets with high accuracy, contributing to improved AI model performance and reliability.
- Identified patterns and inconsistencies in data, enhancing dataset quality and reducing error rates.
- Consistently met strict quality and productivity benchmarks, demonstrating strong attention to detail and adherence to timelines.
- Followed data security and privacy guidelines, ensuring compliance with data protection standards.
- Documented workflows and participated in training sessions, improving team efficiency and knowledge sharing.

Credit Control assistant

Gain Ventures Ltd | *Nairobi, Kenya*

- Managed customer interactions and updated records in digital systems, ensuring accurate data tracking and reporting.
- Resolved customer issues efficiently, improving satisfaction and reducing escalations.
- Promoted products and services through customer engagement, contributing to increased revenue through upselling and cross-selling.
- Collected and analyzed customer feedback, providing insights that supported improved service delivery and communication strategies.

ICT Attaché

Zetech University | *Ruiru, Kenya*

- Installed, configured, and maintained Windows and Linux systems, improving operational efficiency and system uptime.
- Diagnosed and resolved hardware, software, and network issues, reducing downtime and enhancing user productivity.
- Configured LAN networks, printers, and performed RJ45 terminations, ensuring reliable connectivity across departments.
- Conducted system backups and recovery processes, ensuring data integrity and business continuity.
- Logged technical issues and resolutions, contributing to structured documentation and faster future troubleshooting.
- Educated users on proper system usage, reducing recurring technical issues and support requests.

EDUCATION

Diploma in Business Information Technology
Zetech University | *Ruiru, Kenya*

PROFESSIONAL CERTIFICATIONS AND TRAINING

- Cybersecurity Fundamentals – International Business Machines , IBM (March and April 2026)
- AI101 Course – Sama (July 2023)
- Ajira Digital Program – Virtual Assistance, Basic App Development & Content Writing (2023)
- Basic Digital Skills – ICT Authority of Kenya (2023)
- Introduction to Cyber Security – Cisco Networking Academy (July 2021)
